The output file is suitable for importing into another forum software and can be added to a backup copy of your forum data. The installer comes as a Zip Archive. Unzip it to a temporary location. Extract the files contained in the archive using WinRAR. Run the program. Enter the URL of a vBulletin forum. Click the Download Inbox button. You will be asked to select the file type for the download (File, RSS, XML, Database).

What's New In VBulletin PM Reader?

vBulletin has a great forum database system, but what if you only have access to the XML files that vBulletin generates? vBulletin PM Reader will automatically download and parse all your private messages into a local database. Notes: vBulletin PM Reader is a free utility for managing your private messages in different vBulletin forums locally. vBulletin PM Reader imports XML files generated by vBulletin, parses all the messages, and stores them in a local database. vBulletin PM Reader can recognize BBCode formatting tags and smilies in messages and generate appropriate text formatting for them in its preview pane and exported HTML files. Different smilies sets could be assigned to different forum data files. vBulletin PM Reader imports XML files generated by vBulletin, parses all the messages, and stores them in a local database. Features: - Installs automatically to your computer - No installation required - Interacts with vBulletin forum databases - Identifies & downloads private messages to a local database (XML or DBF files) - Parses all the messages into a local database - Recognizes BBCode formatting tags and smilies in messages - Provides an option to set your own smilies set for each forum - Translates your smilies into your own language - You can download all messages at once as one file - Adds links to your message to forum threads - Generates a HTML export of your messages - Can be configured to open in a new tab - Supports multiple databases - Supports UTF-8 character encoding - Supports copying of all messages to clipboard - Supports preview panes vBulletin PM Reader includes a setup script that installs all required files. See also vBulletin vBulletin Forum vBulletin Forums Category:Windows-only software Category:Windows-only freewareToronto on Thursday said it was aware of the "unfortunate incident" at the Sheraton Centre that saw armed men threaten and force employees to lock the hotel's doors, hold them in the basement, and run for safety. Police say the attackers stole $150,000 worth of property, including cash and electronics, and fled the hotel before being arrested a few hours later. Toronto Police spokesperson Meaghan Gray said officers were called to the hotel at around 2 a.m. ET and arrested two men in a car in the hotel's parking lot. Gray would not provide any further details on the suspects' ages or charges. The incident, which occurred at the Sheraton Centre, is not related to last week's shooting on Yonge Street, she said. Waleed Ahmed said he and his son were headed back to their hotel in the hotel parking lot when they saw several
